LCHART OF THE WEEK

The Number of Stocks That Make a Portfolio Diversified

DeMarzo, Peter, and Jarrad Harford. "Chapter 12 Systematic Risk and the Equity Risk Premium." Portfolio Volatility represents the mock portfolio's overall volatility

- Academic studies show that the diminishing benefits of diversification start after 30 securities.
- Relatively concentrated portfolios of 30 to 50 securities optimize diversification's idiosyncratic risk reduction and minimize a dilutive benefit of too much diversification.
